

Foreword

Sanghamitra English version completed an year with all your blessings and good wishes. We completed another exciting year of Srinivasa Ramanujan Mathematricks Club and concluded the program with Medhavadhanam 2008. Koumudi (an online monthly magazine) published an article about Medhavadhanam, which describes *the motivation to start the program, the milestones reached, goals of the organization etc.* A review was published in India post released on August 15th. See NRI Page for Medhavadhanam 2008 review.

Thanks for encouraging mails. Received lots of mails about the cover page, NRI Page, Kids' pages and Salutation to your solution etc. Sanghamitra is looking for committed volunteers in the areas of writing articles related to festivals, about noted personalities, any public events and also proof reading. If you wish to extend your hand, please send mail to susri@sanghamitra.org.

“Story time for everyone” program was successful with 8 members, 4 kids and 4 adults. Some stories were re-narrated based on the kids imagination. Many friends requested to organize this kind of activities throughout the year rather than only during summer. But, we strongly feel these programs go well when the kids are in playful mood. With the academic activities at school, they may not be able to express to their capability.

We are planning to conduct Mathematricks Club in other parts of US during Winter and Spring break to share the knowledge and looking for interested volunteers to share the information within their community. Working out the statistics and availability. We will bring this information to your notice in next issue. Thanks for all your interest and support. Thanks to those who sent mails and enquiries about Vedic mathematics classes.

Let us meet again in the next issue due in January.

-Sanghamitra Team.
