

## Foreword

Sanghamitra team wishes an energetic new year to all readers. We are so glad that most of you liked cover story and Kids' pages. We are sure that most of you go out for site-seeing and take photographs whenever you find an interesting place. Please send us nice pictures and we make them appear as Sanghamitra cover page. With few more helping hands it is going to be little easy. If you wish to extend your hand, please send mail to [susri@sanghamitra.org](mailto:susri@sanghamitra.org).

Sanghamitra as a part of its service, distributed some blankets, dresses, books to some needy families. It took a step in spreading knowledge about vedic mathematics not only limiting to St. Louis, but working with some organizations and conducting classes in different locations. If you wish to join hands, you can contact sanghamitra by phone or e-mail at your convenience. Together we can make difference!

In this summer, Sanghamitra is bringing Srinivasa Ramanujan Mathematics club for two different age groups namely Juniors and Seniors depending on their ability to grasp things. We are planning Medhavadhanam, second year in a row on August 2<sup>nd</sup>. Introducing another event 'Story time for everyone' in summer - Two hour activity, where lots of stories will be shared based on 'all time great quotations'. It is conducting another two hour session for 'Young Telugu learners' – 'Learn Telugu in a fun way' event. We are asking parents to come up with new ideas for a better quality learning. 'C.V. Raman Science club' is pending for the last few years due to less work-force.

Received lots of suggestions for improving the magazine and we will certainly consider them. We want to involve the young energy in bringing the English version of the magazine and working on it.

Let us meet again in the next issue due in July.

-Sanghamitra Team.
